

What Degree Can I Get?

Architecture majors at Snow will want to complete either an Associate of Science (AS) or an Associate of Arts (AA) degree. These are transfer degrees, designed to prepare you to transfer to a four-year college and work on a Bachelor's degree. In Utah, the only architecture program is at the University of Utah. There are also programs at the University of Nevada in Las Vegas, Montana State University in Bozeman, and University of Idaho in Pocatello.

What Classes Should I Take?

Students who wish to transfer to a four-year institution should take the courses recommended below. Note that these recommendations represent a minimal commitment to studying architecture. Students who have a transfer institution in mind should consult that institution's Architecture Department regarding course transferability as soon as possible.

Most Programs Require...

- ART 1020 -Beginning Drawing
- ART 1120 - 2D Design
- MATH 1210 - Calculus I
- PHYS 2010 - Physics I +
- PHYS 2015 - Physics I Lab
- PHYS 2020 - Physics II +
- PHYS 2015 - Physics II Lab

*ARCH 1615 & ARCH 2630 are also required for admission into the architecture program at the University of Utah, **but** these courses **aren't** offered at Snow College. They can be taken at the University of Utah or at Salt Lake Community College.*
