

## What Degree Can I Get?

The Snow College Dance Department offers a curriculum designed to provide all students with a general understanding of the principles of movement that promote dance as an artistic and cultural expression with the power to enrich and transform the individual, community and society. For dance majors, the department provides the technical foundation for the first two years of college study. Emphasis is placed on teaching the fundamentals of dance: ballet, modern dance, jazz, tap, hip hop, social dance, yoga and performance, as well as development of creative skills and exploration of dance theory.

## What Classes Should I Take?

A student who has chosen a transfer institution should check prerequisites unique to that institution. Students are required to take a placement audition at the new institution, which will determine the transferability of credits. Therefore it is wise for students to take as much dance technique as possible at Snow College to increase the chances for a successful audition. A student who works closely with the Snow College dance advisor will be helped through the transfer process as smoothly as possible.
