

## What Degree Can I Get?

Theatre majors at Snow will want to complete either an Associate of Science (AS) or an Associate of Arts (AA) degree. These are transfer degrees, designed to prepare you to transfer to a four-year university and work on a Bachelor's degree. Theatre majors will graduate from a university with a BFA or a MFA degree which usually does not require a foreign language. However, we suggest that a student contact the particular transfer institution he/she wishes to attend for specifics regarding a language requirement. Students who major in theatre find it an ideal preparation for entrance into professions such as teaching, acting, technician, designer, and a director.

## What Classes Should I Take At Snow?

Students who wish to transfer to a four-year institution should take the courses recommended below. Note that these recommendations represent a minimal commitment to studying theatre.

Students who have a transfer institution in mind should consult that institution's Theatre's Department regarding course transferability as soon as possible.
