Total for the Building **106,760 ft²**

- 4 large common areas in the central core and 25 study rooms
- 8 laundry areas, one on each wing
- 53 suites for a total of 394 residents

Additional Information

- This will be the first Residential Life Building with air conditioning
- The building has yet to be named
- 3 Study rooms and laundry facilities on each wing
- ADA accessible rooms on each floor
- Garbage shoots on the north end of the building
- Power lines along College Ave and 1st East are being buried.

PARKING: When completed, there will be **315 parking spaces on the interior of the block.** This will be completed by taking out three homes north of Snow Hall and paving the sand volleyball area north of Mary Nielson as well as parking east of Castilleja. In the meantime, we are looking at options to provide additional parking at the current VB site and possibly East of Castilleja. All working on this project will park on site, or behind the former Beach House. The parking area west of the new building, along 1st East, may be compromised at times for deliveries.

All data points subject to change as we are very early in the project.
