

## What Degree Can I Get?

Family and Consumer Science majors at Snow will want to complete either an Associate of Science (AS) or an Associate of Arts (AA) degree. These are transfer degrees, designed to prepare you to transfer to a four-year college and work on a Bachelor's degree. Students who major in Family and Consumer Science find it an ideal preparation for entrance into professions such as: public education or work in extension services, or may work as family and/or consumer consultants with various businesses or social agencies.

## Which Classes Should I Take?

Students who wish to transfer to a four-year institution should take the courses recommended below. Note that these recommendations represent a minimal commitment to studying family and consumer science. Students who have a transfer institution in mind should consult that institution's Family and Consumer Science Department regarding course transferability as soon as possible. Students who wish to earn a Bachelors degree in a comprehensive Family and Consumer Science program should plan to transfer to Utah State University, Southern Utah University, or Brigham Young University after finishing their work at Snow.

- HFST 1220 Apparel Selection and Construction
- HFST 1240 Principles of Food Management
- HFST 1400 Courtship and Marriage
- HFST 2130 Interior Design
- HFST 2220 Apparel Construction Techniques
- HFST 2250 Personal and Consumer Management
- HFST 2400 Family Relations
- BMGT 1210 Personal Finance
- EDUC 2200 Intro to Education

## Special Opportunities

Classes at Snow College are small, allowing students to become well acquainted with both faculty and other students.

Family and Consumer Science students are also given the opportunity to participate with students and professionals from throughout the state in professional workshops and conferences.
