DISCOVER UTAH

Sculpted by wind, water and time, Utah is home to breathtaking national parks, world-class shopping, and a variety of recreational opportunities. As the #1 state in the nation for job growth, there is no better place to gain an education focused on preparing students to succeed in the global market.
EXPERIENCE LIFE AT SNOW COLLEGE
Central Utah may not seem like a bustling metropolis, because it isn’t. Snow College offers a friendly small town community with clean air and no traffic. Campus living puts you in the center of it all! Enjoy the convenience of walking to class and living in a safe, secure, and affordable environment.

Not all learning takes place in the classroom, and Snow College is perfectly located for a variety of activities and outdoor adventures. The Center for Global Engagement organizes picnics, parties, hiking and shopping trips. The details are all taken care of; you just come along and enjoy the experience!
Whether the goal is to transfer to a major university or return home to work in your field of choice, Snow College has been putting students on the right path for more than 125 years.

At Snow College you can look forward to small class sizes, professors that know your name, and with a higher than average graduation and transfer rate, you can continue on to the university of your choice.

When comparing the 1,200 community colleges in the United States, Snow College’s academic rigor, student support, affordable tuition, and positive learning environment have consistently come out on top.
Name: Young Jae Hwang  
Country: South Korea  
Transfer University: University of Michigan  
Major: Engineering

The beauty of attending Snow College was the amazing outdoor program provided. The Center for Global Engagement offers opportunities for the international students to travel to the best national parks in the world. I traveled to Zion’s National Park, Bryce Canyon, Arches, as well as the Grand Canyon. I am now a student at the University of Michigan and will remember these opportunities the rest of my life.

Name: Collins Kabaira  
Country: Zimbabwe  
Transfer University: The University of Utah  
Major: Chemical Engineering

My time as a student at Snow College provided many opportunities. After graduating I received a scholarship to attend the University of Utah where I serve in student government. There are few places that have the same love, patience and integrity as Snow College. The Center for Global Engagement (CGE) will be your family away from home. They assist you with maintaining status, getting a driver license, and any other questions. The success that I have had, and will have in the United States is a direct result of the support I was shown at Snow.
These are just some of the majors available at Snow College!

Housing .................... $2,200 USD
Books & supplies (estimate) .... $940 USD

Total ...................... $18,500 USD
(1 year = 2 semesters, costs estimated)
Students may attend Snow College with a TOEFL test score or take the English placement test upon arrival. With conditional admissions available, students study English writing, reading, listening, and conversation before entering regular academic courses.

Belonging to the Associate of American Intensive English Programs (AAIEP), and offering English as a Second Language (ESL) for over 35 years, Snow offers four levels of ESL. Each level takes 8 weeks to complete. A student begins in Level 1 and can earn their ESL certificate and be in regular classes after two semesters. If they enter as Level 3 students they can finish ESL classes in one semester. Once students pass the ESL courses they can register for regular academic courses.

Keeping class sizes small (at an average of 12 students per class), students receive personal attention. Students attend class five days per week, with four or five classes per day. Classes offered: Listening, Reading, Composition, Grammar, Conversation, American Culture and Values, TOEFL Preparation, Literature, and American History. Level 3 and Level 4 classes count as electives toward graduation.
BACHELOR OF MUSIC DEGREE

The Commercial Music curriculum within the Bachelor of Music program is an exceptional way to learn the skills necessary to succeed in the music industry. Because of the small class sizes, world-class faculty and facilities, and strong administrative support, our students have unmatched opportunities for both classroom learning and practical application through performance and touring. Learn from award-winning faculty members with years of experience and national and international credits as performers, composers, and producers. Students work with some of the world’s finest musicians in master classes and workshops. For more information about this degree visit snow.edu/music.
LEARNING LIFE’S LESSONS THROUGH MUSIC
SAY HELLO TO MOE!

Moe Morita is a classically trained pianist who comes to Snow College from Japan. She is studying English and Music with Snow College’s Music Department. She is a member of the Accapella Choir, Commercial Music Ensemble and a successful soloist.

“I have had the chance to perform in front of many different people, not only as a soloist but I have also accompanied many performers. As a classically trained pianist, the best part of being in the music program is the chance to learn all types of music like jazz and pop. My favorite experience has been the Annual Rock Concert; we perform songs by ABBA, Queen and other legendary bands.”

“Japan is my home country but I like to say that Snow College is my second home!”

- Game Design
- Jazz Club
- Soccer Girls
TAKING HIS GAME TO THE NEXT LEVEL
MEET SOULEYMANE GUEYE!

Souleymane is originally from Dakar, Senegal and had the opportunity to attend High School in Japan.

There were many universities interested in having Souleymane join their athletic program, but he chose to attend Snow College. “I wanted to find a college that would help me reach both my academic and athletic goals. I am able to improve my skills as an athlete, learn English, and become prepared for a career in business administration.”

Combining the small class sizes, the completion of English as a Second Language (ESL), and impressive athletic program, Souleymane will be prepared to transfer to a major university after Snow College.

The students and the community here at Snow are so supportive. It is a great opportunity to represent such a great college. Go Badgers!
Applying to Snow College is easy. Students seeking conditional admission are not required to submit a TOEFL/IELTS score for admission. However, a TOEFL score of 63 (minimum 15 in listening, reading, writing, speaking) or IELTS score of 6.5 will place the student in regular academic courses.

1 Be sure to complete the Snow College Financial Statement and Application for International Students, available online at snow.edu/international
