

**SNOW
COLLEGE**

OPEN POSITION:

**Professor of Practice
Software Engineering**

About Our College

Snow College is a two-year public college. **In January of 2020 The Chronicle of Higher Education ranked Snow College #1 in the nation for student success of two-year colleges.** Located in the heart of Utah, at the foot of the Wasatch Mountains, Snow College is one of the oldest comprehensive two-year college in the Western United States.

The College was established in 1888 and excellence continues to be the hallmark of our work and activities. We are the preferred choice of approximately 6,000 students who want a small college experience filled with a variety of activities, events and performances, to go along with their outstanding academic opportunity.

Snow College offers programs and courses which are highly interactive and are designed to reach a broad spectrum of students: high school students desiring college courses, traditional on-campus students, technical education students, online students, and non-traditional students who wish to start or complete a degree. With campuses located in Ephraim, Richfield, and online, students are able to complete degrees in Associate of Arts, Science or Applied Science or have the option of numerous specialized, short-term technical training certificates and diplomas including a few programs with bachelor's degrees. Snow is committed to the success and positive experience of every one of these students.

Highlights

- Snow College won **2021 Best of State Awards** in the following areas: Higher Education Administrator, College/University Teacher, Educational Advisor, Curriculum Development, and the Best of State Statue award in Education.
- Small class sizes result in students receiving more personal attention and specialized assistance from dedicated professors and advisors.
- Low tuition, housing and fees make Snow College the most affordable and best valued college in Utah.

Mission

Snow College continues a tradition of excellence, encourages a culture of innovation, and cultivates an atmosphere of engagement to advance students in the achievement of their educational goals.

Roles of Snow College

Building upon a tradition and heritage of academic distinction and personalized attention, Snow College fills the following roles:

1. Snow College serves as one of the nation's finest two-year transfer institutions with a focus on liberal arts and sciences, and maintains cooperative relationships with distinguished colleges and universities.
2. Snow College enhances the economic development of Central Utah through partnering with business, industry, government, and community to provide high-demand professional, career, and applied technology education.
3. Snow College enriches the educational, cultural, and recreational life of Central Utah through community and continuing education opportunities, cultural and athletic events, and community outreach services.
4. Snow College is dedicated to helping individual students achieve their academic goals through a caring, personalized learning environment, providing comprehensive student success services, library and learning resources, and targeted supplemental and developmental education programs.
5. Snow College focuses on developing the whole student and encourages student involvement in a wide variety of co-curricular activities, service organizations, service learning opportunities, academic and special interest clubs, athletics, and student leadership opportunities.
6. Snow College welcomes all who will gain from or contribute to its educational and student-centered environment including individuals with diverse backgrounds and perspectives.
7. Snow College partners with higher education institutions which offer baccalaureate and graduate programs in select disciplines for the citizens of Central Utah.

The Job

Description:

Snow College is seeking a dynamic individual to participate in the continued development and implementation of a new Bachelor of Science in Software Engineering Degree Program. This person should have a track record of mentoring individuals toward success. They should possess dynamic presentation skills and be capable of clear communication. They will guide students through this program by instruction, securing internship opportunities, and developing curriculum that matches industry expectations. This is a Non-Tenure Track position.

Qualifications:

Minimum Qualifications:

- Bachelor's degree in Software Engineering, Computer Science, or closely related field required
- 2 or more years' experience working in Software Engineering, Computer Science or closely related field preferred.

Preferred Qualifications:

- He or she must have the ability to teach the full-range of courses from foundation level courses in computer science to upper level courses in software engineering. Preference will be given to those with experience with automation in software engineering, web services, data management, and software maintenance.
- They must possess a student oriented focus with an ability to inspire the best efforts of students in the classroom, lab, and practicum.
- They must be proficient in written, oral, presentation, and speaking English. They must be eligible to work legally in the United States.
- Candidates with experience in curriculum development and design; successful experience working with colleagues and in teams; skills to be an excellent recruiter, advisor, mentor, and connector; or experience working with underrepresented minority students will be given preference.
- They will also be given preference for programming experience in a variety of languages (C#, JavaScript, Python, etc.). Additional experience in the following areas is valued:
 - Experience in application design and development
 - Familiarity with IoT or intelligent application platforms
 - Connection to industry partners and other education institutions.
 - Modern development methodologies (agile, scrum, etc.)
 - DevOps / DevSecOps (CI/CD)
 - Distributed version control
 - Modern front-end development tools & languages (preference for React)
 - Modern back-end development tools & languages (preference for .NET/C#)
 - Database administration (preference for PostgreSQL)
 - Software testing (TDD, BDD, etc.)
 - Software maintenance

Duties:

- Faculty are expected to teach fifteen credit equivalencies per semester and assist in student mentoring, recruiting, and placement. They will teach typical undergraduate courses in software engineering, software development, and computer science. They may occasionally teach special topics courses in areas of personal interest
- They will participate in student recruitment and program marketing. They will advise and mentor computer science and software engineering students. They will also help find employment opportunities for students after the completion of the program.
- Faculty will also participate in engineering department growth and improvement as well as faculty development activities and college committee assignments.

Ensures professional development and training and works collaboratively to build team capacity and competencies. Encourages open communication among peers, staff and students.

Develop and maintain complete and updated policies and procedures for the financial operations of the College – including accounting, capital assets, grant accounting, accounts receivable, accounts payable, and payroll;

Coordinate with directors of budget and procurement on policies and procedures in respective areas.
Supervises and directs inter-departmental work and coordination.
Additional administrative-related responsibilities as assigned.

Diversity & Inclusion

The Snow College administration, faculty, staff, and students, affirm our commitment to diversity and inclusion, and consider them essential elements of a vibrant learning community and integral to our institutional mission. We are determined to foster an environment of inclusion, diversity, openness, and respect for the many differences that will enrich the Snow College community, including race, ethnicity, religion, gender, age, socioeconomic status, national origin, language, sexual orientation, and disability.

Snow College:

- Encourages and welcomes respectful dialogue and exploration of diverse ideas, topics, perspectives, and issues to enrich our campus community.
- Promotes equitable access to all in academics, leadership opportunities, and employment.
- Enhances opportunities by encouraging all to share their cultural experiences and identities, allowing others to learn from this exchange.
- Invites applicants and employees from all backgrounds to foster respect, understanding, awareness, pluralism, and cooperation in an increasingly complex, diverse, global society.

Strategic Plan

This position is an important part of the College's **Strategic Plan**.

Living & Working in Sanpete County
