

Badger Buzz Article

From the Office of Advancement

As you may know, the Job Creation Act of 2010 reduced the employee portion of Social Security Tax from 6.2% to 4.2% of taxable wages for the 2011 calendar year. This means we are all taking home 2% more than we were last year.

If you are looking for a meaningful method to put these funds to use, may we suggest that you consider a gift to the Snow College Foundation through payroll deduction? You can donate 1% of your salary and help support a scholarship or program of your choice. You will have a lasting impact in our students' lives without having a significant impact on your budget.

All employees who make a payroll deduction pledge will be recognized on a permanent employee donor recognition display that will be unveiled and dedicated later this year. Please contact the Advancement Office at extension 7062 for more details. You can also request a copy of the new payroll deduction form by sending an email to giving@snow.edu.

Many thanks are extended to our employees who are currently giving through payroll deduction. You truly make a difference!
